

Professional Summary

Final-year B.Tech student in Artificial Intelligence & Data Science (CGPA 8.4/10) with hands-on experience across three internships spanning computer vision, ML model deployment, and data analytics. Built production-grade systems using YOLOv8, TensorFlow, MediaPipe, and Tableau. Seeking a full-time AI/ML or data engineering role where I can apply deep learning and analytics to solve real-world problems.

Internship Experience

NullClass

Data Analyst Intern | Nov 2025 – Feb 2026

- Built end-to-end Pandas/NumPy analytics pipeline ingesting 100,000+ records, cutting raw-to-dashboard turnaround from days to under 2 hours; surfaced 3 high-growth hiring markets and 5 in-demand skill clusters via EDA to inform leadership workforce planning
- Designed 6 interactive Tableau dashboards with geospatial hiring maps, salary filters, and trend overlays — reducing stakeholder manual reporting effort by 60

TARAS Systems and Solutions

AI/ML Development Intern | Dec 2024 – May 2025

- Deployed a real-time Hand Gesture Calculator (OpenCV + MediaPipe) achieving 95
- Built a CNN-based image analysis module that automated visual feature extraction, cutting client inspection review time by 40

Projects

Smart Exam Evaluator

Python, Gemini AI, OCR, Flask, React

- AI-powered exam evaluation platform with an admin dashboard; automated grading pipeline supports free-text and structured answers, reducing evaluation time by ~75% vs. manual marking. Integrated generative AI for contextual feedback generation, handling varied answer formats including handwritten scans via OCR preprocessing.

GenAI Multi-Document Intelligence System

LangChain, GPT-4, FAISS, FastAPI

- Built a RAG-based platform capable of ingesting 10+ documents simultaneously and answering cross-document queries with source attribution — response time under 3 seconds on standard hardware. Implemented chunking, embedding, and vector retrieval pipeline from scratch using FAISS, enabling semantic search across 50,000+ tokens of context.

CineHome+ | AI-Powered Personal Cinema

Python, OpenCV, MediaPipe, Gemini AI, React

- Developed a gesture-controlled entertainment platform covering play, pause, seek, and volume commands with 93% accuracy using MediaPipe hand tracking. Recommendation engine combines collaborative filtering and content-based signals, reducing average browsing time before selection by ~50%.

Skills

- Languages:** Python, Java, C
- ML & AI Frameworks:** TensorFlow, YOLOv8, MediaPipe, OpenCV, LangChain, Hugging Face Transformers
- Web & Backend:** Flask, FastAPI, Spring Boot, React, REST API
- Data & Analytics:** Pandas, NumPy, Tableau, Power BI, FAISS
- Tools & Platforms:** Git, GitHub, Google Colab, VS Code
- Domains:** Deep Learning, Computer Vision, NLP / LLMs, Generative AI, Data Analytics

Education

P.S.R Engineering College

2023 – 2027 | Sivakasi, Tamil Nadu

Bachelor of Technology in Artificial Intelligence and Data Science
CGPA: 8.4 / 10

Certifications

- Python Programming Certification
- Python (Basic) – HackerRank
- ChatGPT for Everyone

Achievements

- Secured **2nd place** in HackSphere-25 (PSR Engineering College) and received a **Rs. 15,000 team grant** in a 24-hour national-level hackathon.
- Received a **Rs. 500 innovation grant** for an IoT-based project concept submitted at the college level.
