

---

## Professional Summary

An aspiring B.Tech student in Artificial Intelligence and Data Science, passionate about neural networks, deep learning, and AI model development. Experienced in building intelligent systems using computer vision, machine learning, and generative AI technologies. Seeking opportunities to contribute to innovative AI-driven solutions in a forward-thinking organization.

---

## Internship Experience

### CodeBind Technologies: AI-ML Intern | July 2024

Engineered hardware schematics for an autonomous self-cleaning robot with optimized sensor integration and executed a data-driven digital marketing strategy to boost brand engagement. Designed a facial recognition-based ML system to automate student attendance tracking, reducing manual effort and improving accuracy.

### TARAS Systems and Solutions: AI-ML Development Intern | Dec 2024 – May 2025

Architected a real-time Hand Gesture Calculator using OpenCV and MediaPipe, and deployed a high-precision Object Detection System leveraging YOLOv8 and TensorFlow. Implemented an Image Analysis module using CNN architectures to enable automated visual feature extraction and pattern recognition.

### NullClass: Data Analyst Intern | Nov 2025 – Feb 2026

Architected an end-to-end analytics pipeline by cleaning and preprocessing a large-scale Kaggle job market dataset using Python (Pandas, NumPy). Crafted 6 interactive Tableau dashboards with geospatial hiring insights and advanced filters, delivering actionable workforce intelligence to stakeholders.

---

## Projects

### Smart Exam Evaluator

AI-powered exam evaluation platform integrating generative intelligence with an admin dashboard for automated and intelligent student assessment.

### GenAI Multi-Document Intelligence System

AI platform capable of analyzing multiple documents simultaneously to extract contextual insights using advanced NLP and generative AI models.

### CineHome+ | AI-Powered Personal Cinema

AI-powered entertainment platform featuring gesture-based playback control, movie recommendation engine, and chatbot assistant built using Gemini AI.

---

## Skills

- **Programming:** Python, Java, C
- **Technologies:** Machine Learning, Deep Learning, LLMs, OpenCV, Flask, SpringBoot, React, Rest API.
- **Tools:** TensorFlow, YOLOv8, MediaPipe Power BI, Git, GitHub.

---

## Certifications

- ChatGPT for Everyone
- Python Programming Certification
- Python (Basic) – HackerRank

---

## Education

**P.S.R Engineering College** Bachelor of Technology in Artificial Intelligence and Data Science 2023 – 2027 | Sivakasi, Tamil Nadu CGPA: 8.4 / 10

---

## Achievements

- Secured **2nd place** in HackSphere-25 (PSR Engineering College) and received a **Rs.15,000 team grant** in a 24-hour national-level hackathon.
- Received a **Rs.500 innovation grant** for an IoT-based project idea.
